complete peace of mind

the gazco pedigree

When you choose Gazco, quality and technology are assured. From contemporary hang on the wall fires to traditional stoves, Gazco are committed to creating the ultimate in flame effect fires. Our research and development laboratories are amongst the most advanced in the industry, ensuring that the very latest innovations are incorporated into our products.

Gazco is part of the Stovax Group. We offer a prestigious product range, which includes everything from the traditional to the ultra-contemporary in a wide array of styles and sizes. Whether your choice is solid fuel, gas, or electric you can be sure to find a stove or fireplace from our range to add the perfect warmth and character to your home. Full details of the Stovax Group's range of products can be found at: **www.stovax.com**

Gazco is an ISO9001 and ISO14001 accredited company. Our rigorous quality control system ensures that all our appliances are safety checked and that they comply with the appropriate regulations, with all fires in this brochure bearing the CE mark. Similarly, our environmental management systems ensure we work in a sustainable manner, whilst endeavouring to protect the environment by minimising any possible impact from our operations.

warranty information

Your Gazco retailer will provide you with a Two Year Warranty for your new electric fire providing it is registered with Gazco. Please note this warranty excludes certain consumable parts. Fires purchased outside of Gazco's Expert Retailer Network will carry a standard One Year Non-Extendable Warranty. Full warranty details, terms and conditions are available at: **www.gazco.com**

expert retailer network

We take great care to ensure that our fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you will enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will be happy to show you a selection of models locally in their showrooms, often fully operational. These independent retailers will discuss your individual requirements covering both technical issues and design, to ensure that you select the most appropriate product for your home. They will also be able to advise on, or assist with, the installation process as well as help provide any after-sales support and servicing your appliance may require in the future.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from purchasing the product only online and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Furthermore, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

In addition, Gazco fires purchased from within our Expert Retailer Network will have the additional benefit of an extended warranty period, subject to terms and conditions. Full details can be found at: **www.gazco.com**

by registering your product online for your free extended warranty. See page 52 for details.

Logic2 Electric Chartwell with Polished effect front, Polished Steel effect frame, and Grey Pebble fuel bed on Amber flame setting.

creative control

All Gazco electric fires and stoves come with a Programmable Thermostatic Eco Remote Control. This easy-to-use handset gives you full control over a host of features, including temperature control as well as visuals.

flame options

Choose from Amber, Blue** or a combination depending on your mood, with five brightness settings for each colour.

chromalight fuel bed lighting

Choose from 14 different Chromalight LED fuel bed settings on electric stoves*, with 13 vibrant colour choices or a gradually changing spectrum of each.

thermostatic ambient heating

Set the optimum temperature for your room between 15°C and 25°C. The fire or stove will use its thermostat to manage heating power, reaching the desired temperature as efficiently as possible.

comfort temperature

Eco and Comfort settings allow you to adjust the thermostat by a further +/- 4°C for greater temperature control.

daily and weekly heating

Fires and stoves can be programmed to provide heat at certain times of the day or week, using the handset's Daily and Weekly Timer function.

heating advance mode

Heating cycles can be easily delayed or advanced if desired, without disrupting daily or weekly programming.

adaptive start control

Advanced thermostat technology allows the fire or stove to turn on up to 45 minutes in advance of a scheduled time to ensure the room is at the right temperature, when you want it to be.

open window detection

To save energy, a sudden drop in room temperature of 4°C due to an open window or door will cause the fire or stove to stop heating the room. Heating can be easily resumed by pressing the heat button again or closing the window.

Gazco's energy saving features ensure all models comply with stringent 2018 Ecodesign energy product standards.

radiance inset fires

size options

Radiance Inset fires are offered in a choice of three sizes, to suit your interior space. Instantly catching the eye, these breathtaking designer fires will add style and warmth wherever they are installed.

Whether you're looking to add style to your study or luxury to your lounge, the Radiance's three sizes offer an array of versatile options. These models can even be fitted into a wallpaper surround, allowing papering to the fire's edge for seamless integration with your home.

	Width	Height
Radiance 85R	901mm	336mm
Radiance 105R	1101mm	336mm
Radiance 135R	1401mm	336mm

* Dimensions given are those overall visible upon installation. For detailed technical information see page 46.

fuel effects

All models in the Radiance series have a White and Clear Stone fuel bed that provides a focal point even when the fire is off.

riva2 670 designio2

Riva2 670 Electric Designio2 Steel in Iridium

Riva2 670 Electric Designio2 Steel in Graphite

The Designio2 Glass and Steel frames offer a selection of contemporary framing options for the Riva2 670 electric fire.

The Designio2 Glass adds a striking black glass surround, with glossy reflective surfaces that enhance the fire's luxury aesthetic. For understated style, the Designio2 Steel frames the fire with a sophisticated metal surround, available in either Graphite or Iridium finishes to complement your décor.

Designio2 frames can be either wall or hearth mounted depending on your tastes. Additionally, the Riva2 670 fire itself can also be installed using the optional wall mounting box, for flat wall installation.

Logic2 Electric Chartwell with Brushed Steel Effect Frame, Highlight Polished Front and Grey Pebble fuel bed on Amber flame setting. Shown with Claremont Limestone mantel, Stovax Burlington Cast front and Polished Insert Panel.

logic2 electric fires

Featuring advanced LED technology, the Logic2 Electric Inset fire range offers captivating, life-like flame visuals for instant fireside ambience. Designed to fit easily into a standard fireplace opening, 3" rebated mantel with slip or simply against a flat wall using the optional spacer frame, this versatile fire can be enjoyed in almost any interior setting.

The Logic2 features various LED flame effects including deep amber, cool blue or a combination of the two. Using the handset that gives you full control over the fire's features, the Logic2's flames can be set to five brightness settings and can also be displayed with or without the heat if desired.

The Logic2's Programmable Thermostatic Eco handset also offers a number of convenient options, including Daily and Weekly scheduling. This advanced handset also includes various energy saving features which make it Ecodesign compliant. For more information see page 5.

eco DESIGN COMPLIANT

These stylish electric fires come complete with three easily interchangeable fuel beds which each add a unique aesthetic. The log arrangement creates a traditional woodburning look, or, switch to either white and clear stones or grey pebbles for a strikingly contemporary aesthetic.

The versatile Logic2 has a choice of modern and traditionally styled frames and fronts (shown on the following pages) that allow you to customise your fire to suit your home.

Logic2 Electric Arts with Polished Brass effect fret & frame with Log-effect fuel bed on Amber flame setting.

Logic2 Electric Arts with Polished effect fret, Polished Steel effect frame and Log-effect fuel bed on Amber flame setting.

Taking its design origins from the Arts and Crafts movement in the early twentieth century, the Logic2 Arts embraces simplicity and clean styling. Available in a range of front and frame finishes, the Arts can be selected in a variety of combinations to suit your tastes. Using the optional spacer frame the Arts can also be installed without having to be inset into a wall, minimising building work.
